

```

1  function b() {
2      const y = 30;
3      a();
4
5      function a() {
6          console.log(x, y);
7      }
8
9      var x = 10;
10     console.log(x, y);
11 }
12
13 const x = 20;
14 var y = 40;
15 b();
16

```

Answer:

a EC: Creation	
LE { {argument: {length: 0} }	outer: b
b EC: creation -----> execution	
LE { arguments: { length: 0 }, a: function, x: undefined 10 }	y: 30 outer: global
Global EC: creation -----> execution	
LE: { b: function, y: undefined <- 40 , x: 20	

Output:
undefined 30
10 30
